Arduino (IT) **ALICE MELA**

ITU (DK) **WILLEM VAN DER MADEN**

Sorbonne University (FR) **LENNY MARTINEZ**

IUAV (IT) **ELENA CAVALLIN**

Join our program on design and AI, where we will explore how generative tools can mingle with notions of the past to speculate and materialize possible human-AI entanglements of the future. We will explore this space through an intense program that will combine inspiring talks with the hands-on development of speculative AI-powered prototypes.
